## PublicSchoolWORKS Adds New Attachment Feature To Reporting Systems

*Feature allows for evidence in the form of pictures, documents and emails to be attached to safety reports for more detailed reporting*

**Cincinnati, Ohio** – February 6, 2012 – PublicSchoolWORKS, a Cincinnati-based company that offers the one and only comprehensive, fully-automated risk management system available for schools, has added an Attachment Feature to its Staff Safety Reporting Systems, part of the award-winning EmployeeSafe Suite. EmployeeSafe is an automated online safety program that facilitates timely and consistent administration of safety training, compliance task management (drills, inspections, IAQ, etc.), accident management processes, MSDS compliance, hazard/near miss reporting and more.

The Attachment Feature allows school staff to attach documents, pictures and images to efficiently provide and communicate all relevant information to address staff safety reports and incident investigations helping quickly resolve safety issues. This quick action in turn can reduce injuries and damage to property along with workers' compensation and other insurance costs.

With the new PublicSchoolWORKS' Attachment Feature, staff can now add attachments to:

- Accident Reports
- Hazard Reports
- Near-Miss Reports
- Safety Suggestions
- Pest Reports

addressing concerns to prevent injuries or property damage, thereby helping to reduce the amount of money districts spend on staff accidents. With the added Attachment Feature, safety managers can also look forward to a reduction in the time required to track, resolve, and document reported safety concerns.

According to Tom Strasburger, vice president of PublicSchoolWORKS, “It is imperative that administrators and staff have more time to focus on student education and still have a way to effectively manage, communicate and address safety concerns. Our system can reduce the time spent managing safety and compliance issues, thus providing more time for focusing on student learning. It gives teachers and administrators the peace of mind that safety concerns are being resolved. “

### **About PublicSchoolWORKS**

Since its founding in 2000, PublicSchoolWORKS has been committed to providing top-quality, practical and cost-effective solutions to the constantly changing environmental, health and safety requirements affecting the nation's educational systems. The company has gained an exemplary reputation for the innovation and technical superiority of its comprehensive and integrated safety and compliance management systems, which combine administrative software tools and resources to dramatically reduce the time and cost required to develop, implement, and sustain safety compliance programs.
