**Schools that Participate in New Jersey School District Insurance Pool
Build Environment of Safety with PublicSchoolWORKS**

The 68 member districts of the School Pool for Excess Liability Limits Joint Insurance Fund (SPELLJIF) to offer online training to employees

Cincinnati, OH – September 26, 2011 – Member districts of SPELLJIF, a statutorily filed joint self-insurance fund owned and managed by four local funds, or owner groups, will now be able to offer employees online safety training courses and management services to ensure an environment of safety for employees and students. SPELLJIF is making the award-winning EmployeeSafe Staff Training Management System available to all member schools.

Created by PublicSchoolWORKS (PSW), the EmployeeSafe Staff Training Management System automates safety programs to effectively and efficiently manage training for employees. PSW's system auto-manages the training requirements and sends out reminder emails to employees to complete required training. Then it provides online documentation to the employees' supervisors when training deadlines are missed. The company offers more than 250 online safety courses in areas such as workplace safety and regulatory compliance, safe work practices and job procedures, food safety and more.

According to Tom Strasburger, vice president of PublicSchoolWORKS, "With EmployeeSafe's fully-automated online Staff Training Management System, we help to minimize the time, paperwork and effort administrators spend on maintaining safe working environments. SPELLJIF members will now have access to the latest courses to meet federal, state and local safety requirements and administrators will see safety training being managed automatically leaving them more time to focus on the business of education."

SPELLJIF Automates Online Training with PSW

Page 2

PSW's Staff Training Management System communicates directly with employees notifying them of training to take, sends reminders if training is not completed, and sends reports to the appropriate administrator when training is not completed by the deadline. This allows administrators to follow up with only those individuals who have not completed their training.

About PublicSchoolWORKS

Since its founding in 2000, PublicSchoolWORKS has been committed to providing top-quality, practical and cost-effective solutions to the constantly changing environmental, health and safety requirements affecting the nation's educational systems. The company has gained an exemplary reputation for the innovation and technical superiority of its comprehensive and integrated safety and compliance management systems, which combine administrative software tools and resources to dramatically reduce the time and cost required to develop, implement, and sustain safety compliance programs.
