**PublicSchoolWORKS Chosen by School Leaders to Win
District Administration's Top 100 Products Award**

EmployeeSafe is the only safety compliance program named as a Top 100 Product six years in a row

Cincinnati, OH (December 1, 2014) — PublicSchoolWORKS announces that [EmployeeSafe Suite](#), the leading online risk management and safety compliance program for schools, was again voted by K-12 leaders as a Top 100 Product for 2014 in *District Administration* magazine's [Readers' Choice Top 100 Products](#) award. This is the sixth consecutive year that the PublicSchoolWORKS EmployeeSafe Suite has received this honor. For 2014, EmployeeSafe was chosen from the record-breaking 2,400-plus nominations cast by educators.

PublicSchoolWORKS offers the only complete safety and regulatory compliance management program built purposefully for K-12 schools. The PublicSchoolWORKS suites have been named a Top 100 product seven times — more times than all of the à la carte school safety-compliance products combined.

“Winning an award that is chosen by our customers, the people who use our systems each and every day, speaks volumes,” said Tom Strasburger, vice president of PublicSchoolWORKS. “Our top priority is to make it easy for our customers to stay fully compliant and sustain safer schools so they can focus on educating students. We are obviously meeting or exceeding their expectations as our customers ensure we win this award each and every year.”

Each year, *District Administration* magazine readers nominate products or services that have made a positive difference. The magazine then features the 100 top-nominated products in its December issue and on its website.

EmployeeSafe Suite automates, manages and sustains a district-wide safety compliance and risk management program, while ensuring districts meet requirements. EmployeeSafe eliminates the manual tracking of training, accident reporting, compliance tasks and other safety requirements. The always-accessible system maintains and centralizes all records and reports for easy access to information. In an era of tight school budgets, EmployeeSafe Suite streamlines processes, enabling district administrators to have all aspects of safety and compliance managed for all of their staff, with stronger compliance in less time.
