

Welcome to our updated newsletter

The Innovation + Information PublicSchoolWORKS newsletter may have a new look, but it's still the same great resource for leading information on safety and compliance. In this issue, we want to ensure you're prepared for spring and summer sports safety. From concussions to AEDs, student safety is a high priority on and off the field.

The Legal Implications of Concussions in Schools

Concussions are a common injury in schools, particularly among student athletes who participate in contact sports. While schools have a duty to protect their students, they must also be aware of the potential legal implications of concussions. Click below for the full article.

Why AEDs are a Must-Have in Schools

Sudden cardiac arrest is a leading cause of death in the United States and it can happen to anyone, regardless of age. This includes students, teachers, and other staff members in schools. AEDs are designed to quickly assess the heart's rhythm and deliver a shock, potentially saving a person's life. Read more at the link below.

Supporting Student Athletes with Asthma

Asthma is a common condition among young athletes, affecting up to 25%. Students with asthma may experience unique challenges during spring sports. It's important to ensure that student athletes with asthma are safe and can fully participate in sports.
